## Michigan Farmworker Jobs Paying \$12.75/Hour in 2017

Updated 9/11/2017

Several agricultural employers have submitted job postings that will pay at least \$12.75 per hour for farmworker jobs in Michigan. The jobs are open to any qualified job applicant, including migrant and seasonal farmworkers anywhere in the U.S. These job orders are often the first step in the employer eventually bringing foreign guestworkers to Michigan under the federal "H2A visa" program if not enough U.S. workers find out about these jobs. If the employer finds enough qualified U.S. citizens or residents for the jobs, then they will need fewer guestworkers. **U.S. workers can apply until 50% of the contract period has elapsed.**

All workers who apply for and obtain H2A jobs have the right to the same terms and conditions that foreign guestworkers are promised. For example, the employer must provide free housing to any worker who is not from the local area. The jobs listed below generally offer approximately 35 - 40 hours per week. If you are in Michigan and are interested in the job, you can call the Job Service office listed below. If you are outside of Michigan, you can call 1-855-633-2373. Benefits available to all workers who get these jobs are:

- Hourly wage of at least \$12.75
- Free and licensed housing if the worker does not live within commuting distance
- The cost of travel from the place of recruitment to the job site, if the worker completes 50% of the contract
- The cost of travel back home, after completing the contract period
- A record of the amount of work performed and amount paid, including deductions
- Workers compensation insurance

Farmworker Legal Services will counsel H2A visa holders about their rights under their contracts, U.S. workers who obtain these "H2A" jobs, and potential U.S. workers who are denied their right to obtain these jobs. An updated version of this list is always available at [www.FarmworkerLaw.org/H2A](http://www.FarmworkerLaw.org/H2A).
